About My FYP Project

Through Our Integrated Use Of Iot, Data Science, Ai, Machine Learning, And Computer Vision We Have Developed A Fully Functional Covid -19 Inspection Robot.

It Is An Automatic Robot That Will Prevent Person From Entering Crowded Areas Without Verifying Sops

Working Of Our Robot

- Our robot will check the mask on a human face
- Our robot will check vaccination cards to determine whether the person is vaccinated
- Our robot will detect body temperature using touch-less sensor
- Our robot will automatically sanitize your hands
- Our robot will open the entrance door after all safety procedures have been followed

Objective

My objective is to secure a challenging and rewarding position in a reputable organization, where I can utilize my skills and knowledge to make a positive contribution to the team and company. I am eager to learn, grow, and take on new challenges, and am committed to delivering high-quality work and exceeding expectations. I am a proactive and detail-oriented professional, with excellent communication and problem-solving skills. I believe that my passion for my work and my dedication to continuous learning and improvement make me an asset to any team.

Experience & Portfolio

Content Writing

From 2018 to Now

Worked More Than 20+ Clients

As a content writer with over 2 years of experience, I have successfully worked with more than 20 clients in a variety of niches. My strong research and writing skills, combined with my ability to craft engaging and informative content, have allowed me to consistently deliver high-quality work that meets the needs of my clients. Whether I'm creating website content, blog posts, articles, product descriptions, A+ content, Privacy Policy pages, or other types of written materials, I am committed to delivering the best possible results for my clients.

2019 - Now

Worked As Freelancer

Web & Wordpresss development

As a web developer and WordPress developer, I have a strong track record of building successful websites for a wide range of clients. With a deep understanding of web development technologies and a keen eye for design, I am able to create visually appealing and highly functional websites that meet the needs of my clients. I have experience working with a variety of clients, from small businesses to large corporations, and I am adept at building websites that are optimized for search engines and rank well in search results. In addition to my technical skills, I am also a strong problem solver and able to quickly and effectively troubleshoot any issues that may arise.

2020 - Now

Worked On Personal Blog

SEO - Search Engine Optimization

As a skilled SEO professional with 2+ years of experience, I have a strong understanding of the principles and best practices of search engine optimization. I have worked with clients as well as on my personal blog to improve their website's ranking on search engines through the use of keyword research, on-page optimization, link building, and other tactics. I am skilled in using tools such as Google Analytics and Ahrefs to track and analyze website traffic and performance. I am dedicated to staying up-to-date with the latest trends and algorithm updates in the SEO industry, and am committed to delivering results for my clients.
